"Liquid Arms"

We are paired
Like two limbs
Not perfect
Not in sync
I reach out into nothing

My voice evaporates
And leaves me
But I don't care
Cos I know
You're speechless too

The effect has taken on
Our senses all shut off
I surrender to liquid arms
In the ether

And I don't want to leave
Or lose this peace
And I know who we are
And where we belong

I don't want to leave this peace
I don't want to leave this peace
[x2]

Please don't wake up
