Show me what it means
Sure I'm dying to know
Do I take a hit to the heart
Should I let bleeding wounds weep
Silhouette a perfect scene
Flavour of the month is nothing new to me
And you can always be never too far from me

Always on the same page
(I'm not sure we are)
Always on the same page

There goes my baby
She's gotta know
She's gotta know
That when the red lights on there's no one at home x2

Pick and pull apart
Leaving me split at the seam
I'm saying if you want blood
You'll never get a drop out of me
What is it you don't understand
Showing no proof in your plans now baby
This pain won't end
And this heartache still rises

Always on the same page
(I'm not sure we are)
Always on the same page

There goes my baby
She's gotta know
She's gotta know
That when the red lights on there's no one at home
