We are cast out
We are facing cold connections
Blindsided
When the ash clouded our vision
In a war between many
So few had won their placement
And I knew that it mattered
When lines formed and ties were broken

Oh when the night falls quiet
You're fearing that the wars begun
Cos we're all in this riot
The sirens and bells have sung
Don't spend your last day waiting
Feeling you're the only one
Cos we're all in this riot
We riot as one

Our horizon
Is a picture card disaster
When the light faded
And the ink ran like a river
If we pause for one second
To catch our own reflection
We'd be caught in the middle
With no time to find forgiveness

Oh when the night falls quiet
You're fearing that the wars begun
Cos we're all in this riot
The sirens and bells have sung
Don't spend your last day waiting
Feeling you're the only one
Cos we're all in this riot
We riot as one

On the front line
I can hear a faint rehearsal
Of the last play
Where the young cry role reversal

Oh when the night falls quiet
You're fearing that the wars begun
Cos we're all in this riot
The sirens and bells have sung
Don't spend your last day waiting
Fearing you're the only one
Cos we're all in this riot
We riot as one
