feat. Lord Infamous

(talking)

It's on now...You know a lot of folks ask me why

I call myself the king of memphis

Basically cause niggas studying us you know what I'm saying

Alot of shit that we doing niggas want to do you know what I'm saying

We brought the first platinum and gold plaques to the city

We representing the city

We did the first movie you know what I'm saying holding it down

Now all of a sudden everybody want to be a hypnotize minds or hypnotize camp posse

You know niggas want to dis me and talk shit

I show half of these niggas to stay on beat you know what I'm talking 'bout

But it's cool though we can play if you want to play

(verse 1)

I'm a snitch nigga killa 3rd ward gun spitter

Belonged triggas with them hydro shots nigga

I'm the man in the man since before you (yea know)

Rocking shows fuckings hoes waiting for you (yea know)

Riding clean cut green maine before you (yea know)

My old crib money in bank before you

And I'm a pro with a 4-5

Try to test me bitch don't try to make me out a fucking lie

I never go against the fucking grain

But if you cross me first I got to show you I'm a fucking mayn

I had some niggas in my clique that I'm glad they gone

And it's some niggas in my clique that I hate they gone

Cause right here it's 'bout that business not that bullshit

If you winning 'bout that business get the fuck trick

Before I buck trick you better duck trick

Or get ran over by them black fucking trucks bitch

(hook)

Don't point a gun unless you gonna use it (back the fuck back)

Don't pull a gun unless you gonna do it (back the fuck back)

Don't let a nigga like me beat you to it (back the fuck back)

You better you
