"Never Gonna Find Us"

Visit "[Never Gonna Find Us](#)" on MotoLyrics.com

Barking at the moonlight
Bouncing off the walls til morning comes
Giddy from that crazy high
That you get from love
We're taking it off
And turning it up
We're out in the backyard dancing
We're working a sexy motown groove
We move like our lives depend upon it
Trouble is never gonna find us here

Put your arms around me
Let me feel your skin brush against mine
Kiss me like we're strangers on a train
Just let instinct run wild
Just hold on real tight

And take it real slow
We're out in the backyard dancing
We're working a sexy motown groove
We move like our lives depend upon it
Trouble is never gonna find us here

And the stars conspire with us
As we close our eyes and leave the world behind

We're out in the backyard dancing
We're working a bad ass motown groove
We move like our lives depend upon it
Trouble is never gonna find us here
Trouble is never gonna find us here
