What you say hammer? Proper

Where are the real women? (8x)

This raps grand national
Dj Quik and Jon B

I ain't down to Earth I'm in a stratus and I love it
Too many broke haters in the city not above it
Yea I'm self-made, that's a scholar
If you didn't listen one in one thousand gettin' free
Where is your tuition
I think I need a maid
Cuz I'm kinda? gettin' paid
And I don't feel like cleanin' up
I'm going through a phase
So I look for all my days
To be enjoyed with a women like me so..

Where are the real women?
Show me the real women
Where are the real women?
Show me the real women

I drink Kelly Green? in water guess it's somethin' bout
the bubbles
Do you want the simple life or do you want trouble?
Do you want the hood or do you want the good?
And don't you wanna be treated like classy women
should?
No imitation Louie Diamonds like Club Louie
Closet overflowin' all Jimmy Choo's jewelry
Float you like a buoy
Spend without a limit
I'm seeking out the women that other women mimic
So Proper

I need a proper girl
Proper love
Proper touch
and someone? with a proper smile
Proper style

She got class
Proper Women

Where are the real women?
Show me the real women
Where are the real women?
Show me the real women

Oh I give you space let you breathe
Won't be tuggin' at ya sleeve
I ain't peekin' in your phone
I'm mature I'm grown
And all of you got ya flaws
We wont make that an issue
I take you to the mall and hold this Louie purse against
you
See how it match your shoes and how it change ya
mood
All your girlfriends perceive me as a really player dude
I show up to your job with the keys to something new
And leave you hella happy that's exactly what I do
The world calls me Q
But my letter don't work unless it's followed by a you
you ___ tryin' to find love in the club
___ will I too
And that's cool
I'm just being me baby this is what it do

I need a proper girl
Proper love
Proper touch
and someone? with a proper style
She got class
Proper Love
Proper Women

Where are the real women?
Show me the real women
Where are the real women?
Show me the real women

Thanks to Jermael...
