In the moonlight there can be no disguise
i can see the lightning in your magic eyes
in the darkness of night watching me
theres a shadow over your magic eyes

(magic eyes)

In the moonlight there can be no disguise
i can see the lightning in your magic eyes
in the darkness of night watching me
theres a shadow over your magic eyes

in the moonlight there can be no disguise
theres a secret message in your magic eyes
the darkness of night watching me
theres a secret message in your magic eyes
