Release the pressure from my shoulders  
And give me what I want so bad  
I'm not waiting 'till I'm older  
I want all I've never had  
I'm blond and even dummer then you're thinking,  
And you should know

Chorus:

That I wish I could be a little famous  
And I do what it takes to be a star  
And I wish I could be a little famous  
And I'm not turning back I've come to far  
I'm not waiting any longer  
Yes I'm tired of feeling small  
Now I'm back and I am stronger  
I've got some but want it all  
I'm blond and even dummer then you're thinking  
And you should know

Repeat chorus
