"So-called friends"

All around the world people are so nice
They feed me compliments and lies
You were just a guy looking for a place

Jump aboard now baby, won't you come on down?

Your so-called friends will only tell you what you like to
hear
Another state of mind is what we need
So watch me lose my head
Do you like it when you're stoned?
Do you like it when I'm stoned?
I'll never trust you

All around the world, we see and buy and fly
We never meet, we just get high
Million dollar smiles, fabulously great
We put the face before the brain

I have the luxury so won't you come on down?

Your so-called friends will only tell you what you like to
hear
Another state of mind is what we need
So watch me lose my head
Do you like it when you're stoned?
Do you like it when I'm stoned?
I'll never trust you
