I'm sorry for the times that I left you all alone
You were all by yourself; you were waiting by the phone
I was out doing you wrong
I was always gone
You were right all along I should of been strong
Instead of letting everything get carried away
Fussing and fighting with you like everyday
Telling you things that I know I regret
So hung over the next morning that I seem to forget
The hate and the lies that I told you that night
The pain and the games, calling you all those names
When I was to blame, I was always out with my friends
I was always getting caught losing your trust again
and again
And how do I get you back, I don't know where to began
Cuz all I wanna do is erase your hurt from within
It's a quarter past ten and all I can think about
Is writing I'm sorry over and over again
C'mon

[Chorus:]

I'm sorry my baby for everything
For telling you lies and making you cry
I'm so sorry baby
I'm sorry my baby for everything
For telling you lies and making you cry
I'm so sorry baby

There comes a time in your life when you have to
swallow your pride
Listen to your heart and do what you're feeling inside
Tell it how you feel no matter what it takes.
Don't be a fool like me and don't make the same
mistake
When you have someone that loves you
You better treat her like a queen
Cuz one day she'll leave

Then you don't have a thing
No one to hold at night wit your arm under her pillow
While you hold her so tight, and watch her close her
eyes

And watch her close her eyes while you fall into a
dream,
A dream about the times when you were both a team
She was right by your side, where she said she'd
always stay
And know that she's gone you better find a way to say
C'mon

[Chorus:]

I'm sorry my baby for everything
For telling you lies and making you cry
I'm so sorry baby
I'm sorry my baby for everything
For telling you lies and making you cry
I'm so sorry baby

I'm so sorry girl
I'm searching for the words to say to get you back in
my life
So we can have some brighter days and try to earn
back
Some of your trust, I'll forget about everything
And focus on us
I promise girl, it's gonna be different this time
I promise to be true and never to cross the line
The thin line between love and hate
To get back wit you girl, forever I will wait.
I'm sorry

[Chorus:]

I'm sorry my baby for everything
For telling you lies and making you cry
I'm so sorry baby
I'm sorry my baby for everything
For telling you lies and making you cry
I'm so sorry baby
I'm sorry my baby for everything
For telling you lies and making you cry
I'm so sorry baby
