Now may i say to you friend there is nothing wrong with
a beat

It's used in every type of song wheter its a march a
waltz a polka a tango

But rock and roll is a...

Different type of thing for it is a mixture

And confusion of beats that jangles the nerves.

The impulsive beats of our bodies and the spirit

And the pure unprovoked music has been

domesticated for a problem

Rock music must give birth to orgasm in revolution.

The heavy rock music now in style motivates you and

entierly gives you a sexual feeling

A girl can be turned on by the music it releases her
inhabitions

The beat of the drum has always been a factor of
fertility rights

The girl realizes her sexuality through the music and
through the beat.

Sex. Sex.

But they said that there was something that got to them
more than the words of the songs.

And that was the beat, the beat !

Louder and faster, louder and faster, louder and
faster...

It hooks young people

Hadden it become a part of this generation and there
lives are ruined.

We need to shake ourself of this filty beat, music, and
words

That produces revolution sex and drugs.

The same beat produces the same evil incarnations

Even if we tie the words jesus saves to it.

Let's have our vile and get rid of this trash.

Smash thouse filthy records get rid of them
