From the first in hell, a child let out a cry  
Some say cause we in hell ~till we die  
What if that death is no sign of Mohamed  
No sign of visa, just an early ... asking for your visa  
We™ re back on the third rock  
People trying got keep ~em head up, you heard pop?  
And bad time trespasses on your premises  
Good times avoid you like a Nemesis  
With or without we all gonna face that  
Find a way to put food on a place mat  
Stay sound, don't feed your anger  
'Cause trouble always imposing with this bulldozer  
The majority will not see the few chosen  
But will see our way through before curtain closing  
Maneuver around ?

Be the one, be the man, be forever, the style  
Never stop, never rest, always know, never guess  
Navigate to the north east south or west  
Just stay the course, just stay the course!  
Keep your eye on the prize and your thoughts out the  
box  
And your head in the sky, take the knife, cut the pie  
Take a peek, no matter east, north, south or west  
And just stay the course, I gotta stay the course  
We™ ll be talking back, a matter of fact right and  
exact  
Maintain, just stay on track...  
We™ ll be talking back, a matter of fact right and  
exact  
Maintain, just stay on track...  
We™ ll be talking back, a matter of fact right and  
exact  
Maintain, just stay the course  
We™ ll be talking back, a matter of fact right and  
exact  
'Cause if you don't that's when you're lost

Stay the course take a horse as I make my way across  
the high planes  
? an army instead of shaking an ?  
Let it drop ? for never taking the loss

From the start to the finish, my heart will never  
diminish  
Hit the stage but I started in the park on the benches I  
was singing forÂ ?  
When I sing itâ€™s such a blessing theyÂ ? for  
redemption poem bringing with dimensions  
Bring on different dimensions, you see that shit?  
You say youâ€™re making a movie, but Iâ€™ve seen  
that flick  
Kissing in the picture I really complete the photo  
Electric fire, electric lighter like beat ofÂ ?  
Living la vida loca, my life is sort of like the tornado  
that took ToTo  
I watch it get slow-mo'd and I shape up like Plato  
I donâ€™t mean the clay-dough, what I mean to my  
philosophy keepin' me real stable

Be the one, be the man, be forever, the style  
Never stop, never rest, always know, never guess  
Navigate to the North East south or west  
Just stay the course, you gotta stay the course!  
Keep the eye on your pride and your thoughts out the  
box  
And your head in the sky get the knife, cut the pie  
Take a peek, no matter east, north, south or west  
And just stay the course, I got stay the course  
Weâ€™ll be talking back, a matter of fact right and  
exact  
Maintain, just stay on track...  
Weâ€™ll be talking back, a matter of fact right and  
exact  
Maintain, just stay on track...  
Weâ€™ll be talking back, a matter of fact right and  
exact  
Maintain, just stay the course  
Weâ€™ll be talking back, a matter of fact right and  
exact  
'Cause if you don't that's when you're lost

Be the one, be the now, be forever, the style  
Never stop, never rest, always know, never guess  
Navigate to the North East south to west  
Just stay the course, you gotta stay the course  
Keep an eye on the prize and your thoughts out the box  
And your head in the sky, let your knife cut the pie  
Take a peace, no matter east, north, south or west  
And just stay the course, just stay the course  
Be the first not the last, get a hold of the craft in your  
soul  
Never slow be fast, keep it right never wrong, write a  
poem, write a song

Just stay the course, just stay the course
