"Straight From The Heart"

Visit "[Straight From The Heart](#)" on MotoLyrics.com

Creative with words it's my gift,
But when I'm with you I turn to loose them,
How?
I don't know,
But all I know is that you are the reason I get chocked,
And find my self forgotten everything,
Except you,
Rolling on my mind,

This is straight from the heart,
Deep down in my heart,
This is straight from the heart,
Deep down in my heart,

You come across my mind every passing min... ,
I can't stay & Reaching for more than an hour,
I dream & felicities about us every knight,
I pray for you everyday & sometimes forget my self,
I carry your picture in my heart very well,

This is straight from the heart,
Deep down in my heart,
This is straight from the heart,
Deep down in my heart,

When you smile you bring up the sunshine in my cloudy
days,
When you said the word love,
You refill my hopes & dreams,
When you away for more than a day,
It feels like a life time,
When I staying at you without saying anything,
You should that means that I love you,
It just the words don't come out,

This is straight from the heart,
Deep down in my heart,
This is straight from the heart,
Deep down in my heart,

You are other half of me,
The reason I wake up everyday,

You are my life,
My inspiration,
The reason there is smile in my face,
& for that I love you always, Cause

This is straight from the heart,
Deep down in my heart,
This is straight from the heart,
Deep down in my heart,

I've tried to keep in my heart,
But since they say it frijaly & peaces,
& I'm afraid I will lose you with peaces,
Then I tried to keep you in mind,
But since forgotten everything,
When I'm around you,
I'm afraid I may lose you,
& having a know media,
Know I've decided to keep you in my soul,
Will you stay for ever,
& there is where I tempted to keep you for the rest of
my life,
Trust me & believe me when I say,

This is straight from the heart,
Deep down in my heart,
This is straight from the heart,
Deep down in my heart,

Creative with words it's my gift,
You come across my mind every passing min... ,
When you smile you bring up the sunshine in my cloudy
days,

This is straight from the heart,
Deep down in my heart,
This is straight from the heart,
Deep down in my heart,

This is straight from the heart
