you enter the room  
you brighten the darkness my love  
in moments with you  
there is no ending or beginning in you

move to the floor  
the purpose combined my love  
like motion of stars  
dynamic symetry in mind

brake my fall  
i found you what is missing inside you  
brake my fall na na na na (2)

always with you  
conected by blood my love  
a purpose fulfilled  
you're my light in this dark  
dark world

i've spoken wittin  
i feel complete my love  
the moment apart  
creating a light in the dark
