[Verse 1:]

And the sun has fallen  
And the backbeat's telling truth  
That you want to hear  
And you want to hear again

And the closer that you get  
With the force of all the weight  
And it's all so clear  
Do you want to feel it

Want to feel it  
Want to feel it

[Chorus :]

For as long as you are  
Here on this earth  
I feel alive  
For as long as you are  
Here on this earth  
I feel alive

[Verse 2:]

And you take your time  
Because we've got all night  
Saturday or nothing  
We can do what we want  
I'm a sucker for your game  
It's the way you tease  
And it's so unreal  
When we touch the ceiling

[Chorus :]

For as long as you are  
Here on this earth  
I feel alive

For as long as you are  
Here on this earth  
I feel alive

[Bridge :]

Make it so  
It shakes your heart  
Nice and slow  
But can you let it go

And you feel life fall away  
And you have no fear  
And you let it go  
Just let it go

And you feel life fall away  
And you have no fear  
Can you let it go  
Let it go

[Chorus :]  
For as long as you are  
Here on this earth  
I feel alive  
Feel alive  
Feel alive  
Feel alive  
Feel alive

Feel alive  
Feel alive  
Feel alive  
Feel alive
