When our eyes met
I just can't believe
You're with someone else

With, one kiss, you have me
I wanna look into your eyes
To feel a little special, place..

If you ever need me
I've been waitin' for so long
Startin' to kill me
What do I have to do?

It's like she's cast a spell
I wish I knew how to break it
So you'd take a little notice of me

When our eyes met
I just can't believe
You're with someone else

I'll be here for you
If you ever need me
I'll be here for you

I wanna take you away
We could forget about life for a while
Drift into a world of ecstasy
Where I can hold you

You look so happy with her
I wouldn't want to tear you apart
But whatever happens
I just want you to know

If you ever need me
I'll be here for you

I've been waitin' for so long
Startin' to kill me
What do I have to do?

It's like she's cast a spell
I wish I knew how to break it
So you'd take a little notice of me
