It was me, i just can't believe,

you're someone else.

With one kiss you'll have me.

I wanna look into your eyes

to feel that special peace.

love me, love me, love me.....

i'll be here for you, if you ever need me x 4

i've been waiting for so long,

it started to kill me.

What do I have to do?

It's like she's cast a spell,

I wish I knew how to break it.

So you 'll take notice of me.

Love me love me,

yeah yeah

I wanna take you away

and forget about life for a while,

drifting through the world and you'll see,

where I can hold you

You look so happy with her

I wouldn't want to tear you apart

Whatever happen

I just want you to know

I ve been waiting for so long

It started to kill me

What do i have to do?

It's like she's cast a spell

I wish i knew how to break

So you'll take notice of me
love me, love me.....

I'll be here for you, If you'll ever need me x 4

yeah yeah
