happiness and lonliness x4
and lonliness
happiness seems to be lonliness
and lonliness killed my world
how could you love when you only thinking of yourself
and how you looked at other girls
happiness seems to be lonliness
and lonliness killed my world
how could you love when you only thinking of yourself
and how you looked at other girls
happiness seems to be lonliness
and lonliness killed my world
how could you love when you only thinking of yourself
and how you looked at other girls
