I, just wanna get back to were we started from, oh yeah.
I, just wanna get back to were we all began, oh yeah.
I, just wanna get back to were we started from, oh yeah.
I, just wanna get back to were we all began, oh yeah.
Tonka won't you take me back.

Now let me take you back in time,
I wanna say that you are mine,
I never meant to make you cry,
I wanna see you satisfied,
Maybe time has knock you down,
I'll let it strike to work you out,
I wanna take you back to then,
I wanna feel you back again.

I, just wanna get back to were we started from, oh yeah.
I, just wanna get back to were we all began, oh yeah.
I, just wanna get back to were we started from, oh yeah.
I, just wanna get back to were we all began, oh yeah.

You hesitate to cross the line,
Don't be missing with mine,
I need you stay with me tonight,
You should be crazy ?,
I never ? and now you're gone,
Then in my dreams we cary on,
Now baby tell me what to say,
Just to have you back to stay.

I, just wanna get back to were we started from, oh yeah.
I, just wanna get back to were we all began, oh yeah.
I, just wanna get back to were we started from, oh yeah.
I, just wanna get back to were we all began, oh yeah.
Just to have you back to stay.

Just to have you back to stay.

Tonka, won't you take me back.

Let me take you back in time,

I wanna take you back to then,

Let me take you back in time,

I wanna feel you back again, yeah...

Get back

Let me take you back in time,

I wanna take you back to then,

Let me take you back in time,

I wanna feel you back again, yeah.

I, just wanna get back to were we started from, oh yeah.

I, just wanna get back to were we all began, oh yeah.

I, just wanna get back, uuhh get back

I, just wanna get back, uuhh yeah
