"Red star"

Best of cruel intentions
Finding what they fail to mention.
No truth, all pretension
Raise your hand to get attention.

You give and we take it,
You build it, we break it
You sign and we erase it
You feel it, we fake it

Its my red star, I steal it
Its my red star, i cant let go
Its my red star, conceal it
Its my red star...all I know

Wasted education
Celebrating imitation
Misplaced admiration
Speaking for a generation

You give and we take it,
You build it, we break it
You sign and we erase it
You feel it, we fake it
