Can't you see my heart is open?
I'm waiting for the sun.
Leave the fear at the step, falling down.
Waiting for tonight
And now the dark is breaking
It's been so far away
The moon has set our memories
a chance for me to stribе

Set you free, I'll make it up
We gotta share our liberty
Set you free, I'll make it up
We gotta share our liberty
Take me to this ride

Set you free, I'll make it up
Just let it go behind

Set you free, I'll make it up
We gotta share our liberty
Set you free, I'll make it up (just let it go behind)
We gotta share our liberty
Take me to this ride
