Swizz beats  
Nigga, ryde or die  
DMX what, what, what

Ain't no way you're gonna stop my flow  
Ain't no way ya niggaz you just don't know  
But niggaz is about to go, oh no, oh no

Ain't no way you're gonna stop my shine  
Ain't no way you niggaz wanna stop mine  
Ya niggaz must be out yo mind, I don't know why

Now what the fuck is you niggaz pressin' me for?  
I saw more ass than a hoe and you stressin' the raw  
If I was testin' your jaw, maybe then you would respect  
me  
But you can't respect me 'cuz you don't even know me  
nigga check me

I'm that motherfucker that'll put you to sleep, while you  
sleepin'  
Then die from a hundred feet, you just knew you was  
creepin'  
Bad decisions lead to last decisions  
Fast collision, now yo ass is missin'

Take it over there now you bring it back to the streets  
Have you forgotten what it means when a dog shows  
his teeth?  
Let me break it down for you he's about to attack you  
Still standin' here faggot? You must want me to smack  
you

You ain't been there or done that, fuck is y'all niggaz  
tellin' me  
I'm the only nigga, walkin' the streets with four felonies  
But peep this, I see shit is hard, niggaz is strugglin'  
Leave rap alone for a little while, go back to hustlin'

Ain't no way you're gonna stop my flow  
Ain't no way ya niggaz you just don't know  
But niggaz is about to go, oh no, oh no

Ain't no way you're gonna stop my shine  
Ain't no way you niggaz wanna stop mine  
Ya niggaz must be out yo mind, I don't know why

Give it to niggaz just how they give it to, me  
Hit 'em in a rhyme because I'm an MC  
Been a lot of places most niggaz won't, see  
That's why I'm at a level that y'all niggaz won't, be

Let your man hold somethin' now he want, more  
You ain't no fuckin' killer what was the front, for  
It was a time when the world was at your front, door  
Now they change places, niggaz want, raw

Niggaz laughed at me and was mad at me  
'Cuz the way life was goin' had to be a, tragedy  
But after me, it's over, I'ma take the whole verse  
I'm tryin' to keep it real that's why I let y'all niggaz go  
first

But you looked a gift horse right in the mouth, didn't  
appreciate  
What you got when you got it, so if I see it, I'ma dot it,  
where to hide it  
You gotta car better drive it the fuck up outta here  
And hope and pray I don't pull up alongside it, come on

Ain't no way you're gonna stop my flow  
Ain't no way ya niggaz you just don't know  
But niggaz is about to go, oh no, oh no

Ain't no way you're gonna stop my shine  
Ain't no way you niggaz wanna stop mine  
Ya niggaz must be out yo mind, I don't know why

Niggaz don't know so I gotta flip  
It seem they've forgotten how dark it could get  
Barks like a pit, scratch when I hit  
We both know you pussy but you stay talkin' shit

What I'ma have to do dog, run up in yo mess  
Catch you while you comfortable put one up in yo chest  
One up in yo vest, of course they the hollows  
You goin' away today, you just lost tomorrow

I'ma go platinum you gots to be kiddin' why  
Make it double platinum, no bullshittin'  
And I'ma stay flippin' flows, rippin' shows  
Strippin' ho's, gettin' dough let me go

And nigaz know, who the best is the dog, DMX is  
The rest is or might as well be helpless, I wreck this  
'Cuz when I wreck shit, I might snatch a niggaz  
necklace  
Then go from like midnight to breakfast, come on

Ain't no way you're gonna stop my flow  
Ain't no way ya niggaz you just don't know  
But niggaz is about to go, oh no, oh no

Ain't no way you're gonna stop my shine  
Ain't no way you niggaz wanna stop mine  
Ya niggaz must be out yo mind, I don't know why

Ain't no way you're gonna stop my flow  
Ain't no way ya niggaz you just don't know  
But niggaz is about to go, oh no, oh no

Ain't no way you're gonna stop my shine  
Ain't no way you niggaz wanna stop mine  
Ya niggaz must be out yo mind, I don't know why

Ain't no way you're gonna stop my flow  
Ya niggaz you just don't know  
But niggaz is about to go, oh no, oh no

Way you're gonna stop my shine  
You niggaz wanna stop mine  
You must be out of your motherfucking mind

I love it, I love it
