[Hook]

I'm back

Let 'em know

I'm back

Let 'em know

I'm back

They give it to me like, yeah, yeah, yeh yeh

[Verse]

I flip through the tracks to get cedar wax

And these fucking cowards know I ain't slipped through
the cracks

Dog back on the scene making a bunch of noise

You're grown man, bring the brave boys

Man these niggas is toyin' with us I don't play with 'em

So if you got gorillas with guns stay with 'em

Motherfucking prepare for war,... when it rains and
pours

Cold blooded killers the murders essenceless

To I'd will need forensics or a dentist

Fuck with DOG and you will be

Straight up, DOE so RIP

Real niggas slip but bounce right back

Went from an ounce to a brick like that

Camera's always on so nigga might act

Like they wanna fight 'til I fight back

[Hook]

I'm back

Let 'em know

I'm back

Let 'em know

I'm back

And give it to me like

[Verse]

Scratch you to death I'm a go getter

The mail's gone, download more to twitter

Slugs big as my finger collect 4 on your vest

And will still be able to play connect point to chest

Or I could hit 'em in the mouth and make 'em bash the

taste
Nothing, I told you I'm a bastard case
Want me, acid face
I spit lava, you better off smacking your father, don't
bother
We're real criminals, we rob niggers
Couple off for life, we mob niggers
Niggas do what you do suck a dick
Better of some suck a shit
Back up in your face up in your grill
Getting back up in that lab with a license to kill
'Til your main that we don't chill
You don't want but you got me
Thought they was fucking with a gangsta, but you not!

[Hook]
I'm back
Let 'em know
I'm back
Let 'em know
I'm back
And give it to me like.
