"Make A Move"

Visit "[Make A Move](#)" on MotoLyrics.com

I gots to make a move and make it soon
I gots to take a block and make it boom
I take the car and hit it with this boom
Now come on, let's get that money

It's two o'clock and I'm just about to hit the street
'Til I knock off this rock I don't get to eat
Sometimes that's like that's the only reason why I
hustle
Step on toes, strong arm and show a lil' muscle

Ain't no real dough, that's why a nigga feel so
frustrated
I hate it, seein' crab niggaz that made it
And I'm robbin' cats just as broke as myself
Livin' foul and ain't lookin' out for my health, where's
the wealth?

Not in New York, 'cause niggaz talk about goin' out of
state
Money got an eighth, comin' back, hot with a lot of
weight
Where's my plate nigga? I'm hungry too
So I'ma do like hungry do, and get a hungry crew

Niggaz that ain't never had, and doin' bad
Won't be bad to get up off that stoop lookin' sad
Grab your bags, it's about to go down
We goin' to this hick town, let's get the lowdown, on
how they get down

I gots to make a move and make it soon
I gots to take a block and make it boom
I take the car and hit it with this boom
Now come on, let's get that money

I gots to make a move and make it soon
I gots to take a block and make it boom
I take the car and hit it with this boom
Now come on, let's get that money

I gots to make a move and make it soon

Gots to take a block and make it boom
We comin' through so make some room
Found somethin' that could be somethin' if I pump it up
This Kid Black is the only thing that could fuck it up

The purple top? Thirty five smalls a ring of games?
But I'ma crush him with the black 40 double L's
I send two niggaz back up top, and come back
We chop up rock, by midnight, we open up shop

It's four in the mornin', we on the block creepin'
Killin' the cash, while yo' ass is sleepin'
Look here, I'm what they call a true hustler
'Cause nigga if I ain't know you since I was like six
Then I don't trust ya

And we'll bust ya over somethin' petty like a few dollars
Put somethin' hot up in that ass and watch you holla
You think I'm here for the hoe flow? I want the dough
flow
And fuck the po', po', nigga keep a fo', fo'

I gots to make a move and make it soon
I gots to take a block and make it boom
I take the car and hit it with this boom
Now come on, let's get that money

I gots to make a move and make it soon
I gots to take a block and make it boom
I take the car and hit it with this boom
Now come on, let's get that money

I spend my money on niggaz 'cause niggaz get me rich
And a bitch ain't doin' shit but suckin' my dick
Niggaz is family now, and we stand strong
Thirty niggaz on six blocks, makin' the cash long

Shit is good, because niggaz gettin' what they been
wantin'
And we see the same shit, other New York niggaz
frontin'
Stick up kids huntin', but I ain't got no love for 'em
I keep the burner and the duster with the glove for 'em

Them motherfuckin' knockers come at us and chop us
And I know they, really tryin' to stop us and wanna drop
us
So we pump, from the alley and the last house we use
as a cash house
It's holdin' 'em strong, it's a stash house

I got runners that work for twelve hour shifts
And when them niggaz keep they count correct, I don't
riff
But I ain't tryin' to hear that nigga took your pack shit
Ain't tryin' to hear jack shit, fuck the black bitch

I ain't a greedy nigga, all I want is a five year run
If I don't make it, then fuck it, let me die near a gun
Got bitches to transport without an escort
I'm makin' moves from D.C. up to Westport

Local police ain't a problem 'cause they don't even
stress us
It be them ATF niggaz that have you under pressure
Just so you know, ain't gon' never put my glock down
(Why nigga?)
'Cause I'm a hustlin' motherfucker, and I'm holdin' my
block down

I gots to make a move and make it soon
I gots to take a block and make it boom
I take the car and hit it with this boom
Now come on, let's get that money

I gots to make a move and make it soon
I gots to take a block and make it boom
I take the car and hit it with this boom
Now come on, let's get that money
