Yo, if you don't know what the love means to me
Things change and rearrange, friends aren't friends
anymore

People go behind your back to score on anything
Will we ever have peace? Someone tell me please

Now you will see on the block, kids playin' hearin'
gunshots

Never phased by the crimes that they witness
Follow me and come and see how I got this way

Young mama right there
Don't be cussin' at your kids right there
Put the right foundation right here, teach respect
So they can be, most high, most high

Most high, most high, most high
Like an angel in the sky
Most high, most high, most high
Like an angel in the sky

Brother why you act that way?
(Why you actin' that way?)
Call your girl woman not her name
Bringin' kids in the world unclaimed
You should know that don't make you a man at all, not
at all

Young father out there, listen up
Don't abandon your seed out there, show we care
Let's get one thing clear, for real
Family should be, most high, held high

Most high, most high
Like an angel in the sky
Most high, most high, most high
Like an angel in the sky

It doesn't matter where you are
You're still a shinin' star, for real
It doesn't matter where you're from

(It doesn't matter where you're from)
Let's give love to everyone
(Start showin' more love)

Hustlers put down your guns, put 'em down
Self respect is the best weapon
Spread love show your real value
Set a true example by startin' with you

See them kids right there
Don't be shootin' 'round them kids right there
Gotta show there is hope out here
Train yourself you can be most high

Start showin' more love

Most high, most high, most high
Like an angel in the sky
Most high, most high, most high
Like an angel in the sky

It doesn't matter where you are
You're still a shinin' star
It doesn't matter where you're from
Let's give love to everyone
Start showin' more love

Most high, most high, most high
Like an angel in the sky
Most high, most high
