5)

[Chorus]

Never been a sucker for love
So if it come down to you and me you know
I don't give a f-ck, hit the next bitch like wassup
cause at the end of the day
you ain't never been nothing but a nut
I ain't never been a sucker for love
so if it come down to you and me you know
I don't give a fuck, hit the next bitch like wassup
cause at the end of the day
you ain't never been nothing but a nut

[Verse 1]

Listen boo, you's a bitch, you been a bitch
you know how niggas do
run up in a bitch, f-ck her well
and the bitch will call them bitches
but then in a week or 2, f-cking all them bitches
A nigga gotta fall back and take a breather
shawty suck a mean dick but in the morning
gotta leave her, wasnt trying to deceive her
I just wanted my dick suck
cute as a motherf-cker
and she got a big butt
now i'm like, what do i do from here
cause she's acting like she ain't trying go nowhere
aint really trying to get attached to this shit
shit its friday, i just want some ass in the bitch
can't be mad at me, i'm just doing what niggas do
got kids by him, she wanna be the niggas boo? what?
really?
oh you think it's like that, ok! i'll be right back

[Chorus]

I aint never been a sucker for love
so if it come down to you and me you know
i don't give a f-ck, hit the next bitch like wassup

cause at the end of the day
you ain't never been nothing but a nut
i ain't never been a sucker for love
so if it come down to you and me you know
i don't give a f-ck, hit the next bitch like wassup
cause at the end of the day
you ain't never been nothing but a nut

[Verse 2]

It was summer time, I was in the slumps
seen that bitch from a far, I was like wassup
remember me? I was that kid
it was him and me, you just did what you did
how you expect me to respect you
when I know a police file of other niggas that you gave
your sex to
i ain't never been a sucker so if you think so
you got the wrong motherf-cker
what's my name? ah ah, bitch! what's my name?
you know who the f-ck it is
I'm a real nigga, that's about my biz

[Chrous]

[Verse 3]

I like the way you beat head, oooh, thats that street
shhh
Shawty can you keep a secret?
Look here, you know what I'm trying to creep with
Ok, come on, cars outside, hotels up the block
Jump in the ride, you and me for the rest of the night
It's all good, click, turn off the lights
Pack it off like that girl, ooh, damn, that ass fat girl
We almost there baby, oh shit yeah baby, ow!

[Chorus x2]
