Uh  
(Our Father)  
I'm a talk this  
(Who art in Heaven)  
Start walk this

In the name of Jesus  
I can have everything good of the earth, be given to me  
by Him  
In the name of Jesus  
There would be never be a time  
That I have to fight the Devil and I cannot win

In the name of Jesus  
I lose all strong holds that the Devil had over my life  
In the name of Jesus  
When I save a thousand two or save ten  
So I thank the Lord for my wife

In the name of Jesus  
I want to thank You, what You showed me, what You  
told me  
In the name of Jesus  
I want to thank You for Your love and watchin' over me

In the name of Jesus  
I don't have to  
(What!)  
Go through what I went through anymore  
In the name of Jesus  
I don't have to  
(What!)  
Now that I got You in my life ever more  
(Come on!)

I know it cannot happen without You, You You  
Without You, oh, oh oh oh, without You, yeah, yeah

In the name of Jesus  
You gave me the book  
So now I just look when I need the word  
In the name of Jesus

You took, a crook, gave him a new look  
Now he speaks the word

In the name of Jesus  
It don't matter what we did  
Tell it to the Lord and He forgives  
Whatever it was right or wrong  
I'm a catch up with the herd then I'm comin' home

In the name of Jesus  
(What!)  
I ran away for far too long, starve too long  
In the name of Jesus  
Where people perish for lack of knowledge  
They all too strong let's get it on

In the name of Jesus  
I realize I'm a sinner  
I repent for my sins and right this moment am a  
beginner  
And baby in the spirit, let me go  
In the name of Jesus please let me go, come on!

I know it cannot happen without You, You You  
Without You, oh, oh, oh, oh, without You, yeah, yeah

I gotta say what's on my mind  
(Say what's on your mind)  
You saved my life a thousand times  
(Saved a thousand times)  
Gave me a dream that came to be  
Opened my eyes so I could see

I've had my ups and had my downs  
Until you turned my life around  
And I want the whole world to see that  
They don't know what You mean to me

In the name of Jesus  
All praises due to the shepherd watchin' the flock of  
sheep  
In the name of Jesus  
Ain't even about where I'm steppin'  
You watch in the dark when I'm sleep

I know it cannot happen without You, You You  
Without You, oh, oh oh oh, without You, yeah, yeah, say  
What You want, sing!
