It's like a walk in the park
She even fuck with a nigga' in the dark
She been fuckin' with a nigga' from the start
'Cause she fuck with a nigga' from the heart
Man, don't get no realer
See her fuckin' with another nigga'
I'll kill her
That's how much i feel her
It's like I'm the fiend, and she's the dealer
But, that's my baby
She's the only one that make me crazy
Ain't no maybes, never act strady
And at the end of the day still my lady

Say what you want
That's my baby
Only one that drives me crazy
End of the day ,she still my lady
She got my back
I got hers
She got my back
I got hers
She got my back
I got hers
She got my back
I got hers
Bigger than words

Hey, something special about her
And it ain't even the pussy
I just can't leave without her
Independent chick
Yeah, she work
Strong and if I do wrong
Yeah, she hurt
Hey
We all got feelings
What we feelin' so real
It's straight to the ceiling
After the long day
Of robbing and stealing

I need to come home for some
Sexual healing
Yeah, That's my baby
Only she understand what I've been through
She got my heart, better do what it do
I love you baby, I love you too
Sexual healing

Say what you want
That's my baby
Only one that drives me crazy
End of the day, she still my lady
She got my back
I got hers
She got my back
I got hers
She got my back
I got hers
She got my back
I got hers
Bigger than words
Say Say Say what you will
Say what you want
Say what you say

Man I'm with the soul eater
Since 14 I was fool with her
I see her bent over
I shot boo with her
Bitch was so bad didn't know what to do with her
In the hood she was that chick
And I was that nigga' who wet that bitch
And if it went and lost my life
I'd die knowing she was my wife
I'll rest in peace

Say what you want
That's my baby
Only one that drives me crazy
End of the day, she still my lady
She got my back
I got hers
She got my back
I got hers
She got my back
I got hers
She got my back
I got hers
More than words

Yo

You know
It's something special about her
(I got your back baby)
You know
('Cause I know you got my back baby)
I can't even live without her
(Through thick and thin)
(Till death tears us apart)
It's gonna hurt you
(Those were the words that came from my heart)
We gonna make it work
(Ohhhh)
That's my baby
Drives me crazy
(That's my baby)
Still my lady
She got my back
I got hers
She got my back you know what I'm sayin'
I got hers
It's like she ain't wanna become a bitch
To only come around to see him packing
I got hers
Through thick and thin
Bigger than words
