What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out

Homie, go against the great, the swag is reckless
Just twelve smacking nigga grabbing...
And a nigga don't respect this, they all come through
like diva
We gotta... to get paid of...
As your man faggot, he knows
Go hard and get down, you'll never down, get down
I stretch, sit down, and I want it now!
I see it, I'mma take it, and you better hold and I want it
all
Cause I been here naked, I ain't never had to fake it
Don't come through with no gun, I'll show son,
I'm standing... and I don't run!
I tell niggas, that ass is back, and it ain't where I'm at
That's what I'm giving niggas, X is back, come on!

Chorus:

What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out
What they don't know, they gonna find out real soon!

And all that... whispering... so shit, I'm a dog
Course I recognize the bitch, and I ain't speak
Cause I was acting funny now
It's not what I'm about... without a fucking stick in your
mouth
And as I... cause I seen through
I didn't mean to, he made me hit him, that's the thing,
dude
And we were big as our hearts, you are half my size
I only fuck with the real scar face at night
Nigger... what you're thinking this...
... Before we get filled up first!
I still reminding niggas what the gun do

Wherever I'm at, niggas don't come through
If they do, they run through

Chorus:

What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out
What they don't know, they gonna find out real soon!

... the mike, you all niggas saw
(It ain't my fault)
With shots go on, ya all niggas dope
(It ain't my fault)
Real niggas run in circles around you
(It ain't my fault)
Deep in and not the dirt find you
(It ain't my fault)
... the mike, you all niggas saw
(It ain't my fault)
With shots go on, ya all niggas dumb
(It ain't my fault)
Real niggas run in circles around you
(It ain't my fault)
Deep in and not the dirt find you
(It ain't my fault)

Chorus:

What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out
What they don't know, they all find out
What they don't know, they gonna find out real soon!

Ladies are fucking blind
Looking without seeing
Walking without being
Living without breathing
OK... real talk!
Fuck out of here with that bullshit, man!
