We can be your inspiration
And this is our declaration
We're punk kids for liberation
Prepare for bis nation

Go go go can you count to three I got a message for
you
We won't let you leave the one you know is true
We won't let you sleep but do you want to know
You've got no style no inspiration

This is the sound that grows
And we all go go go
And the people they want to know
Why they love it so

Go go go can you count to three I got a message for
you
We won't let you leave the one you know is true
We won't let you sleep but do you want to know
You've got no style no inspiration

Where we go the people go conspiracy a go-go
