What good is it for a man to gain the world?
Yet lose his own soul in the process
Said you're alright with Him, I wonder

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
You're alright with Him, I said, you're alright with Him

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
You're alright with Him, I said, you're alright with Him

I'm callin' out to You Lord, because I need Your help
See once again I'm havin' difficulty savin' myself
Behavin' myself, You told me what to do and I do it
But every and now and then gets a little harder to go
through it

Losin' friends, day by day, I'm in so much pain
When I'm here, Lord, please take me away
I put you here to do a job and your work ain't done
To live is to suffer but you're still my son

And there will be a time when you shine as bright as the
stars
But there won't be a his or hers, just ours
Then you'll see what I've been tryin' to show you all
these years
Do the right thing 'cause after the tears, come the
cheers

I will, my Lord, with my heart and my soul
That's gonna be how I roll, from now until I'm old
Lead and I'll follow, You take away the sorrow
I'ma sleep on what You said and holla back tomorrow

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
You're alright with Him, I said, you're alright with Him

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
You're alright with Him, I said, you're alright with Him

I want You to know Lord that for what You've given me,
I'm thankful
Sincerely, from the bottom of my heart, I'm grateful
You gave us power in our words so I think before I
speak
And that way when I speak, they know I'm here to teach

Can't tell 'em nothin' wrong, 'cause I love 'em too much
I reach a lot of people and Lord, I'm lovin' the touch
But deep inside, I've got somethin' that's workin'
against
Everything I know is right, what I know makes sense

That's when you must fight harder, than you've ever
fought before
'Cause what you've got goin' on inside you is a war
Between good and evil, be careful of those who wanna
be you
They smile but are not really happy when they see you

Be careful of the ones that always wanna get you high
'Cause when the time comes, that one'll let you die
Listen to me, I'm here but I can only help you
If you want me to help, what do you want for yourself?

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
You're alright with Him, I said, you're alright with Him

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
You're alright with Him, I said, you're alright with Him

My Lord, my savior, don't judge my behavior
But instead, take what's in my heart and put it in my
head
See, I guess I really never knew, how proud I made You
My life is Yours, my soul I gave You

I don't know if I'll do good enough
(He's by your side)
And we both know the hood is rough
(Right by your side)

Sometimes I don't know what to do
(X, dry your eyes)
But I know what I gotta do
(It'll be alright)

You keep givin' me the word and I'll put it to song
Talk to me, I'll talk to them and we can't go wrong
This is the start of somethin' strong and this is just the
start of it
Praises to you my Lord for lettin' me be a part of it

I was a kid that, been there, did that
Became ashamed so I hid that but ain't no longer with
that
Use me as an example, if I can do it, then they can too
With the Lord behind us, there ain't nothin' that we
can't do

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
You're alright with Him, I said, you're alright with Him

I know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with
Him
'Cause you're alright with Him, I said, you're alright
with Him

He's by your side
Right by your side
X, dry your eyes
'Cause it'll be alright

Yeah, he's by your side
Right by your side
X, dry your eyes
'Cause, it's gonna be alright
Yeah, yeah, yes it is
