

Do "So Near, So Far"

Visit "[So Near, So Far](#)" on MotoLyrics.com

Never thought it'd be like this
It's you an only you I miss
An empty bed a bleeding heart
Reminds me that you're so far away

Chorus:

I know you hear me when I sing
Letting you know the thoughts you bring
A lovely smile, your face
Wherever you are
You are so near, so far

Everyday this aching grows
Pierced my heart right through my soul
The way we held, the words we spoke
Gives me strength when I am alone

Friends say it's time to let it go
They say that it's been way too long
But tell me how can I go on alone
I thought we'd be together
You and I forever

(chorus)

If I had wings
I would fly in your direction
Sail the seven seas
To have you near
And I would never, ever let you part
For you would always
Be here in my heart

(chorus)
