If you wanna chase a woman  
Than you gotta understand  
You know they say  
That two can play the game  
But catch me if you can  
Without any explanation  
I will take your room apart  
From an open invitation  
To a shot gun at your heart

Chorus:

There's no running away from love  
When you here it call your name  
You can never escape the heat  
Once you dance inside the flame  
There's no running away from love  
It might be more than you can stand  
But if you get it right  
It's worth the price  
Don't try to fight it  
Take it like a man

Once you drink the magic potion  
Don't go crying for the cure  
You gotta swim the ocean of my love  
If you wanna reach the shore  
So when I need some attention  
Put some sugar in my tea  
I should never have to mention  
How to satisfy my needs

Chorus

Take it like a man  
You got a lot to put up with me  
Coz you know I love to flirt  
And if I get a pain, I will be sweet  
But until then  
Just take it like a man  
Take it like a man

So when I need some attention  
Put some sugar in my tea  
I should never have to mention  
How to satisfy my needs

Chorus

You can never escape the heat  
Once you dance inside the flame  
There's no running away from love  
It might be more than you stand  
But if you get it right  
It's worth the price  
Don't try to fight it  
Take it like a man

Chorus
