Gotta stand up and fight, you're not alone
Never deny yourself, don't dig a hole
These streets are yours, and they will always be
Running through your veins, wars in the streets
Even if behind you, there's always a wall
be always respected for what you've said and done
The crew's in your heart, a second family
Respect and friendship, values in the streets
ONE LIFE, ONE CREW
They're always there for you
ONE LIFE, ONE CREW
Fighting the world for you
ONE LIFE, ONE CREW
ONE LIFE, ONE CREW
You closest friends, they know what you stand for
Telling you that you're doing right, ï¿½
