Armani to tha club, pick up my boo muthafuka but first i  
gotta roll one for my people  
Haters frontin when they saw us, the windy city night  
crawlers,  
Who would imagine lyricals on a legacy that's  
legendary like (pause) rap-a-lot and the legit ballaz  
Shit let the moe pop the drop the top ride like a

Get you blind to the ever blowin' line to the sky while I  
till I die tryin' to get by,  
Lil miss lookin' tight in the gucci, wheather yes a  
hoochie, love the way the dookie jiggle when you walk,  
Soundin' like pretty girl every time you talk, i know you  
allways make the fellas wanna break em off,  
Hear me brotha, gotta try to get our free father, hit a lic  
and feed one another, 'cause all we got is, each other  
Im takin' week after weekend to keep the flows that i  
freak what, pull up on a chick and spit game,  
Let me show you how the backseat of a lexus feel, take  
a hit of x and chill, girl dressed to kill,  
Whipping that sex appeal.
