Cornered in the cold side of life  
Trapped into this world of lies

The world's upside down  
Dreams are falling to pieces  
There's no more hope to be found  
Searching the strength to resist

Sometimes the world's against me  
You think you know what's good for me

I don't ask anything  
I don't wanna be locked  
For life in the cage you have set up for me

This time I turn  
I keep my eyes wide open  
You think you know what's good for me

Till my last breath - for freedom - I will stand  
Till my last breath - for freedom - I will fight  
Till my last breath - for freedom - I will stand  
Till my last breath - for freedom - I will fight

I try - I learn - I live - I will make it  
A new era has come  
I'm the only master of my destiny

Till my last breath - for freedom - I will stand  
Till my last breath - for freedom - I will fight  
Till my last breath - for freedom - I will stand  
Till my last breath - for freedom - I will fight
