Out on the floor each night, I'm really movin'  
The band's is wailin' right i feel like groovin'  
The chicks are out of sight and i am grooving  
The crowd is in tonight beggin' for more

I am on the floor tonight, I feel like singin  
The beat is running right and guitars are ringin'  
I'm really on tonight and everything swingin'  
The room is packed out tight, light at the door

I Get My Kicks Out On The Floor

When I'm out on the floor, it makes me feel like a king,  
Everybody here, don't you know what I mean  
It makes me wanna move (makes me wanna move).  
It makes me feel that groove (make me feel that  
groove).  
I wanna twist and shout (makes me twist and shout).  
Work it on out (make me work it on out)
