Bust it

Slow love (Damn, that sound good)

Makin' slow love

Makin' slow love

Makin' slow love

Makin' slow love

Slow love

Makin' slow love

Makin' slow love

Slow love

Makin' slow love

Makin' slow love

Let's make slow love

Girl, I can hardly wait till we're alone in my room

You bring the blanket, I'll bring the boom

I know the night is young, but that's just as well

'Cause by the time we're through the night it'll be old as hell

Turn of the TV, we'll be doin' it from dawn to dusk

The couple on the screen ain't got nothin' on us

We'll make love in slow motion like we're suspended in time

Erotic movements 'cause our bodies do become intertwined

Tell me, girl, are you ready for lust

Tonight I plan on givin' you the maximum thrust

You're as soft as a pillow and I'm as hard as steel

Word 'em up, Cool J, man, I know just how you feel

I'm aroused by your every touch

The very sound of your voice gets my gander up

It seems the longer we do it, it only gets better

So I'mma blow Keith Sweat, and make it last forever

Slow love

Makin' slow love (We can take, we can take our time)

(Let's not rush this thing) Let's make slow love

Slow love

Makin' slow love (Uh, huh, yeah)

Makin' slow love (We'll be makin' slow love)

Let's make slow love

Girl, me and you will hug tight in my living room dark  
You're in your negligee and I'm just casually sharp  
The only utter of light comes from the moon into the window  
We're alone, slow music playing and then so  
I ask you to dance, you willingly respond  
By saying (Yes) and takin' me in your arms  
So I'll walk you to the dance floor down in my room  
Switch on the set lights as you put on perfume  
Grab your body, pull you close, then pull you closer  
My love starts to grow so I walk you to the sofa  
Aroused by your beauty like when we first met  
You walked into my life, then my future was set  
Standing with me by the couch and sexy looks on your face  
Like saying, "Take me, I'm yours" and "Love me down to the base"  
I laid you down, kissed your navel, then moved up above  
From your breast to your neck, hit the lights and make

Slow love

Makin' slow love (We can take, we can take our time)  
(Oh... hmm, oh... oh... ooh...) Let's make slow love  
Slow love  
Makin' slow love (We're makin', makin', makin', makin' love)  
Let's make slow love (Slow love)  
Let's make slow love (And it feels so good to me, baby)

Uh, girl, when you're next to me (When you're next to me)  
I'm in heaven ecstasy (We're in ecstasy)  
You're drivin' me crazy, oh, no, do me, baby (Ooh, ho, ho, ho)  
Then after my dream only starts to flow  
Girl, then it's up and down we go (Ooh)  
Ooh, I feel your body shake (Give it to me, baby)  
Girl, I'll give you all you can take

Let's make slow love  
Can you feel it  
Let's make slow love  
Let's make slow love

Slow love

Let's make slow love (We can take, we can take our time)  
Let's make slow love

Let's make slow love  
Let's make slow love (Let's not rush this thing)

Slow love  
Let's make slow love (Uh-huh, yeah)  
Let's make slow love  
Let's make slow love (Say, baby)  
Let's make slow love (I'm so wrapped up in your love)

Slow love  
Let's make slow love  
Let's make slow love  
Let's make slow love (No, no)  
Let's make slow love

Slow love  
Let's make slow love  
Let's make slow love (Whoa...)  
Let's make slow love  
Let's make slow love

Slow love  
Let's make slow love  
Let's make slow love  
Let's make slow love  
Let's make slow love

Slow love  
Let's make slow love  
Let's make slow love  
Let's make slow love  
Let's make slow love

Slow love  
Let's make slow love  
Let's make slow love  
Let's make slow love  
Let's make slow love
