Ouh, ouh, ouh, ouh, ouh

It's another red light after the red I flight
And I swear, I can smell your perfume
I turn the key and I watch you sweet

It's another goodbye
And I don't if I can get through
The day with just one kiss
I'm on the freeway
I'm in the fast lane wondering how

Turn this car around
And I'm coming home
Yeah I'm coming home
I need your love
And girl, I'm coming home

You know no one can erase
The smile on my face
My heart beats faster with every mile
I'm getting close and closer

Turn this car around
And I'm coming home
Yeah I'm coming home
I need your love
And girl, I'm coming home

Turn this car around
Turn this car around
And I'm coming home
Yeah I'm coming home

I need your love
And girl, I'm coming home
(I'm coming home, I'm coming home, I'm coming home)
