Memories of you, dear
Fill my heart with pain
And I know you'll never
Be in my arms again
You say that you found another
You tell me you love him, too
My poor old heart is breakin'
Lord, I don't know what to do

I tried so hard to please you
But nothin' could be done
For now you're with another
And I'm left all alone

I know that I can't forget you
Although sometimes I may try
Regretting the day that I met you
I just sit alone and cry

Wherever you may wander
Wherever you may be
I'll always love you darlin'
And want you here with me
