"Earn Your Respect"

Why's it all about following the crowd these days? lets
try to start following our own hearts! in these times of
smoke and haze no one to look to, no one to blame
we're all moving targets because we strive, we strive to
be the same how many times you sell yourself out you
give yourself up without a doubt fall to the game,
another lost stand for true self, a worthy cause where's
your respect who cares about the past show some
respect no more excuses it's not too late to start again,
to prove yourself to win some self respect your filth,
you're lies, you're facedown - i bleed with you where's
your respect - show some respect where's your respect
- earn your respect
