Sacrifice your life, working your way to the top of the ladder  
Just a slave to the worlds decay  
No way out, need a stiff drink just to get thru the day  
You can say

[Chorus:]

The Picture's Wild  
The Picture's Wild  
The Picture's Wild  
The Picture's Wild, Wild, Wild

Everything's a rip off, everyone's uptight  
Fucked up generation still can't get it right  
Every G-Damn move you make is on file  
You can say

[Chorus]

Terrorism, communism, on the streets every day  
You can see it on the evening news, it's the way of the world  
Can't take it, never will, it's life as we know it  
You can say

[Chorus]
