In urge to become something  
(believed to be) more infact  
I pursue the whole  
Of human Dementia  
You know when your catastrophe  
Is utterly complete  
Only when you shut your eyes  
For the truth  
And for the worse

There's no place within your mind  
When all faces are set on fire  
To burn for the honour  
Of the pain in your heart  
And fade in the focus  
Of your cursed lust  
Ghostforce climax  
Soul Constrictor  
A fountainhead of disorder  
A splinted human codex  
Ghostforce  
Soul constrictor

I cry out  
For the death of my guardian angels  
No more navigating  
The labyrinth of self-deceit  
The one we share with a psyche  
(Almost) Obsolete  
Without a ground to stand on  
Down the ladder  
Where we all break down  
The soul murder armory is ready to go  
So I blow up my sense of logic  
Deluded in default  
To separate the alternative

Stifled by the conscious mind  
Hell made real by the terror of strife

And right from the core of hysteria

Where suffering seems to grant  
No end  
In the absence of free flow  
A trance of flames  
With no exit
