i got a noose around my neck it's gettin' tight as it can
get the floor is
dropping but i can't quit get this noose off my neck i'm
not ready to die i got
a noose around my neck i keep on running but i meet
the dead and the dead, they
are my friends get this noose off my neck it won't catch
me this time yeah, i'm
swinging now dangling above the ground my feet are
six feet in the air and i'm
losing breath swingin' 'round and 'round i know what i
got to do get this noose
off my neck the hangman's head is looking black my
friend are dead, can't bring
them back get this rope of my neck it won't catch me
