[words 4/2-99, music 97-98]

Abstract tears to the ground  
Soft years of melancholy  
A draft of inner advice  
To welcome the strangers neighbor  
A vast, swift talk of romance and despair  
A bellboy's journey through the eight limbs of Yoga

An efficient success of lost ego and body  
Flannel flirtation, a chasm of childish obedience  
And I can see you all, for this is without blur

Glorious destruction  
Glorious creation  
Grimly folds with luminous elegance  
Winged between the corroded amber

I scent a fragrance from the past  
Bright as death, it came soaring towards me  
Something's missing and I don't know what it is  
Forlorn satisfaction, admitting the selfish seal  
And the serpent's steel

Directly from the ocean of flowers  
Visual contact, planet B8----18  
Sonar disturbance  
Asmodeus comes with terror  
In spontaneous air corridors  
All for the phantom to inhale  
For today is forever

And the world grew without form  
And for those who planted their seeds of  
Reliant vulnerability  
Chakra Nadmara, I wish I was as fresh as you  
Find your way, the "asphyx" teaches  
Rumble, dismay, a chronicle of the samurai

Oh you are crystalline, I say, you are made of pain  
For only suffering can create such beauty  
And only suffering can wipe out your tears

I remember I ate of the tree  
And hence of the wisdom of which we may speak of  
The tedious ones are those who attends the mask of  
Which they seek

I open up for the flavor of starvation  
There is absolutely no one there,  
And "his" is for sure, as we grasp to reach the light  
Slowly to mosey  
I'll drag you by your horns  
For with a whirling emblem cracking the dawn,  
I face the goat at sunrise
