I can't believe I made it here
Today, I'm afraid of yesterday
I wrote this letter to you, my dear
Because, afraid, this fades away

I say "baby, babe, I've loved you a long time"
I'll try harder just to know you're all mine
I say "baby, babe, I've loved you a long time"
I'll go happy knowing that you're alright

I called today, but missed you again
Today's the day I go up in flames
I sent the money to you, my dear
Today's the day I burn away

I say "baby, babe, I've loved you a long time"
I'll try harder just to know you're all mine
I say "baby, babe, I've loved you a long time"
I'll go happy knowing that you're all right

I say "baby, babe, I've loved you a long time"
I'll try harder just to know you're all mine
I say "baby, babe, I've loved you a long time"
I'll go happy knowing that you're all right
