Yeah it's a big world out there  
and most of it is water.  
So you better learn how to swim real good  
or you should know how to fly this is motion  
taking too long, like a bad song, fly to hong kong,  
high as the sky without the bong.  
Never the less the level of stress was endless,  
I felt pressed in the cabin class business.  
I remember what it took to get us here,  
the mad years we performed just for the beer.  
Now we hover undercover in the atmosphere.  
Intergalactic players, true pioneers.

Big wheel, spinnin around,  
breaking thru cities and rippin thru town.  
Get down time to flip that frown,  
keep your body moving from your feet to the crown.

This is the J to the O H to the N C and then I'm on.  
I spy like James Bond. N to the OR. I'll put you in the ER,  
fumming like a cigar, screaming like a marshall.  
Electric guitar starp me in there, a true circle, the  
perfect square.  
Hot like flares, danger, beware you must prepare.  
Only strategic affairs turn boys to millionaires.  
We got to keep moving/forever staying in motion.  
Papa never gave me tools to the trade, yo, I'm tryinta  
make the grade.  
Suckas think I got it made. I won't trade or give aid.  
You'll be played like arcades, follow the big wheel  
wherever it takes,  
you nothing, but the truth. You must pursue in the  
endeavor.  
Just remember to yourself be true explore the world.  
It's a treasure if you only knew
