I , i got a feeling
Deeper emotion
I aint the only one
So cut the blame? until it's gone
Time where have you gone now
Precious the moments
Sweet are the sounds
So cut the blame? until it's gone
Time where have you gone now
Seems just like yesterday

Some predict my heartache
Some look in another realm?
In the end it seems tragic
But so appropriate indeed
But then nonetheless the end is fate
Tell me a lie

Pick me a partner
Find someone else to blame

Until it's gone
Time where have you gone now
Seems just like yesterday

Time where have you gone now
Seems just like yesterday
