Moonlight city drive

No one here gets out alive

Moonlight city drive

So sit back and enjoy the ride

Moonlight city drive

It'd take a miracle to survive

Moonlight city drive

Sit back and enjoy the ride

No one here gets out alive

The druggies, the hookers,

The pimps and the pushers,

The faggots, the addicts and me

The neon lights, the murderous nights,

The zombies walking the streets

What's a little sin under the covers?

What's a little blood between lovers?

What's a little kiss to be discovered?

Cold stiff body under the covers

All work makes a dull man

All work makes a dull man

Who do you, who do you think you are?

Who do you think you are?

Some famous Hollywood star?

Mistress of the night

Come take a ride in my car

The pleasure, the pain,

The needle, the vein

Hitting targets on delicate skin
Legs spread like disease
Bullets buzzing like bees
Selling out and doing you in

What's a little sin under the covers?
What's a little blood between lovers?
What's a little kiss to be discovered?
Cold stiff body under the covers

All work makes a dull man
All work makes a dull man

Who do you, who do you think you are?
Who do you think you are?
Some famous Hollywood star?
Mistress of the night
Come take a ride in my car

Moonlight city drive
No one here gets out alive
Moonlight city drive
So sit back and enjoy the ride
Moonlight city drive
It'd take a miracle to survive
Moonlight city drive
So sit back and enjoy your ride

I know you feel me watching you
I know you feel me wanting you
I know you feel me hating you
Now I'm going to kill you

Checking in a cheap motel
Entering the realm
Pills swimming in wine
Hands around your neck

Now I'm killing you
Now I'm killing you
Now I'm killing you
Now I'm Killing you

Cold stiff body under the covers

Moonlight city drive
Cold stiff body under the covers
Moonlight city drive
Cold stiff body under the covers
Moonlight city drive
Cold stiff body under the covers
Moonlight city drive
