Clap your hands
Stomp your feet
Dog Eat Dog said to step right in
Dog Eat Dog said to step right out
Tell me son what the fuck is live about

We search this whole world for love, peace and
harmony
But all we found was hate, deceit and jealousy
Dog Eat Dog so come and check the dialogue
Get your brain out of the fog
Vinny Babarino represent the sweatogs
All bord kings roadrunner catalog
You could run but you can't get far
No matter where you at, that's where you are

No matter where you're from
Don't matter what you do
We got the bangin' beats and you can all get some
It's like a rabid Dog infecting you

Explosion I'm moving like motion
I'm gigantic I'm deep as the Atlantic Ocean
Feel the force I strike with the iron cross
You're the face of hte pale horse
True inded we plant the seed to infiltrate the whole
world community
We're taking no slack it's an all out attack
Cuz this time the RZA let u shock the track
Word to God together on a mission so guard your tape
deck we're converting stereos
Ded and the RZA racta tell you one more time boy
PROTECT YOUR NECK
